

AT&T Associate
Solution Provider

Not all **speeds** are created **equal**.

Internet speed claims represent maximum network Service Capability speeds. Actual customer speeds may vary and are not guaranteed. Actual speeds vary based on factors including site traffic, content provider server capacity, internal network management factors, device capabilities and use of other U-verse services.

All **speeds** are not created equal.

Speed is only one of many criteria in selecting the right broadband technology for your business. Reliability, security, network and cloud-based services are key factors in evaluating the right network solution for your business. AT&T Business Fiber offers:

- Speeds of up to 1 Gbps both upload and download.
- Reliability, scalability and security on the AT&T network.
- High capacity bandwidth to support all your needs.

AT&T is where **speed** meets **affordability**.

AT&T Managed Internet Services (MIS) is ideal for our business customers running mission critical applications that require dedicated bandwidth with robust Service Level Agreements (SLAs). Our business customers looking for reliable, ultra-fast broadband internet access that is less expensive and superior to cable will find AT&T Business Fiber as a highly attractive option.

AT&T Managed Internet Services	AT&T Business Fiber
